

THE PERIOD IS EXTENDED FOR USERS TO CARRY OUT THE SISBEN METHODOLOGY IV SURVEY

- *The new date established to complete the socioeconomic characterization of Sisben in its latest methodology will be July 10, 2023.*
- *The identification document and those of your family nucleus must be presented, giving exact address, telephone number and/or cell phone and email, if available.*

San Andres Island, May 17, 2023. Taking into account the commitment of the Departmental Government with the implementation of the application of the Sisben IV methodology survey, it was decided to extend the update period.

In this order of ideas, the new date established to end the socioeconomic characterization of Sisben in its latest methodology will be July 10, 2023.

We are asking the 6.078 affiliates in the Archipelago to be aware of the notifications from the Secretariat of Health so that, in due course, they come to the office located the First Floor of Block 2 of the Computer Building, in order to have them carryout the respective survey by the Sisben Office.

For which you must present your identification document and those of your family nucleus, giving exact address, telephone number and/or cell phone and email, if you have it.

Notifications are from 8:00 a.m. to 12:00 noon and from 2:00 p.m. to 6:00 p.m., Monday through Friday.

The decision seeks to eliminate the access barrier to the exercise of the right so that all those who are part of the system have all the guarantees and benefits offered by the program in its new modality.

The 'All for a New Beginning' administration joins the National Government, calling on all the beneficiaries who are part of this new phase to be attentive of the various calls made by Sisben officials in the Department that allow progress in the coverage levels of the survey application.
